Profile Summary

Databricks Certified Data Engineer Associate and Azure Data Engineer with around 2 years of experience building and optimizing scalable **ETL/ELT pipelines** and production-grade data engineering solutions on Azure. Hands-on expertise in **Azure Data Factory, Azure Databricks, PySpark, SQL, ADLS Gen2, Delta Lake, and Unity Catalog**, with experience in data ingestion, transformation, pipeline orchestration, **Medallion Architecture**, **data quality**, and **production support**. Currently expanding expertise in **Generative AI and AI-powered data solutions**.

Technical Skills

Programming & Query Languages: Python, SQL, PySpark

Azure Data Services: Azure Data Factory (ADF), Azure Databricks, Azure Data Lake, ADLS Gen2, Azure Key Vault

Databricks & Data Platforms: Delta Lake, Unity Catalog, Delta Live Tables (DLT), Databricks SQL, Databricks Workflows

Data Engineering: ETL/ELT Pipelines, Data Ingestion, Medallion Architecture, Data Transformation, Data Quality, Performance Optimization

Data Governance & Security: Role-Based Access Control (RBAC), Data Lineage, Schema Management

DevOps & Analytics: Azure DevOps, Git, GitHub, CI/CD, Power BI, ServiceNow

Work Experience

Tata Consultancy Services (TCS)

Azure Data Engineer

Feb 2025 – Present

Kolkata, India

Data Ingestion & Pipeline Development

Apr 2025 – Jan 2026

- * Developed parameterized **ADF pipelines** for **ADLS Gen2** ingestion with triggers and dependencies.
- * Built **PySpark/SQL transformations** and managed **Delta Lake** tables within the **Medallion Architecture**.
- * Monitored production pipelines and resolved **ingestion/transformation issues**.

Advanced Data Engineering & Pipeline Modernization

Feb 2026 – Present

- * Developed optimized **ETL/ELT pipelines** using ADF, Databricks, PySpark, SQL, and ADLS Gen2.
- * Built **Lakeflow pipelines (formerly DLT)** with incremental processing, SCD Type 2, and Delta optimizations.
- * Designed **metadata-driven ADF orchestration** and resolved pipeline and data quality issues.

Projects

Modern Sales Data Lakehouse | *Databricks, ADF, ADLS, PySpark, SQL, Delta Lake*

Jun 2026 – Aug 2026

- * Designing a **Medallion Lakehouse** with metadata-driven ADF pipelines for incremental ingestion from SQL, REST API, and CSV/JSON sources into ADLS Gen2.
- * Developing **PySpark and Delta Lake** transformations for data quality, deduplication, SCD Type 2, and analytics-ready Gold datasets.

Sales Reporting Data Integration | *Databricks, ADF, SQL, ADLS, PySpark, REST API*

Aug 2026 – Sep 2026

- * Developed **PySpark and Spark Structured Streaming** workflows to process current-day and previous-day SAP sales data with reporting metrics and data-quality validations.
- * Orchestrated **ADF** workflows to store Parquet data in ADLS Gen2 and integrate with an external reporting API using JSON POST requests.

Education

Hooghly Engineering and Technology College, MAKAUT

B.Tech in Computer Science and Engineering | CGPA: 8.91

Aug 2020 – Aug 2024

Certifications & Achievements

Databricks Certified Data Engineer Associate

HackerRank SQL (Intermediate) Certificate

Received **On-the-Spot Award** twice from **TCS management** for contributions and performance.
